CHLOROFOTEX PROFESSIONAL

Sodium hypochlorite (NaOCl) 0.5% solution for hygienic cleaning, whitening, and deodorizing.

UFI: NC1U-41TX-G00E-H4YM

Description

CHLOROFOTEX PROFESSIONAL is a sodium hypochlorite (NaOCl) 0.5% solution, fully soluble in water, with cleaning, whitening, and deodorizing properties. Additionally, it leaves a pleasant fresh scent.

Advantages

- ▶ Powerful cleaner
- ▶ Strong whitening power
- ▶ Provides complete deodorization
- ▶ Versatile applications
- ▶ Cost-effective
- ▶ Leaves a pleasant fresh scent

Instructions for Use

Turn the nozzle to the spray position. Spray directly onto the surface and wipe thoroughly. For stubborn stains, allow the product to act for 1 minute before wiping. Do not spray on hot surfaces; allow them to cool down first. Keep the nozzle in the "STOP" position when the product is not in use.

Technical Information

- **Appearance:** Liquid, pale yellow in color, with a characteristic, pleasant odor
- **pH of undiluted product:** 11.5 ± 0.5

The above data are indicative of the standard manufacturing process and should not be considered as product specifications.

Precautionary and Storage Instructions

FIRST AID MEASURES

- **General Instructions:** Immediately remove any clothing contaminated with the product. Move affected individuals to fresh air.
- **After Inhalation:** In case of fainting, lay the individual down in a stable lateral position. Bring the person to fresh air and lay them down carefully. If exposed to fire or decomposition products, rescuers must wear respiratory masks. Ensure fresh air is available, and consult a doctor for certainty. If breathing has stopped, trained personnel should administer artificial respiration. If vapors from the product have affected someone, remove them from the exposure source and bring them to fresh air.
- **After Skin Contact:** Immediately rinse with plenty of water and soap. Remove contaminated clothing. Seek medical advice if irritation occurs.

DALCOCHEM

DETERGENTS - DISINFECTANTS - COSMETICS - DISINFECTIONS – PEST CONTROL

- **After Eye Contact:** Rinse eyes immediately with plenty of water, lifting both upper and lower eyelids alternately. Check for and remove contact lenses if present. Continue rinsing for at least 10 minutes. Seek medical assistance if irritation occurs. Be cautious during eye rinsing, as high-pressure water could damage the cornea. Consult a doctor. Call a doctor immediately.
- **After Ingestion:** Do not induce vomiting. Seek medical assistance immediately. Do not give anything orally to an unconscious person. Rinse the mouth with water.

HANDLING AND STORAGE INFORMATION

Handling:

- Handle containers with care. Avoid inhalation of vapors.
- Prevent contact with skin and eyes. Ensure proper ventilation during use.

Storage:

- **Technical Measures and Storage Conditions:** Store in tightly closed containers in a cool, dry, and well-ventilated area.
- **Requirements for Storage Areas and Containers:** Keep in a cool place. Strictly prevent the product from penetrating the ground.
- **Storage Instructions:**
 - Do not store with acids.
 - Keep away from heat and direct sunlight.
 - Store in tightly closed containers.
 - Keep locked or accessible only to authorized personnel.
 - Store locked up and out of reach of children.

Hazard and Precautionary Statements

Classification according to Regulation 1272/2008 (CLP).
