DALCO QUAT

Food area disinfectant based on quaternary ammonium salts.

UFI: K5DU-W1SY-200S-U5DR

Description

DALCO QUAT is a disinfectant-cleaner based on quaternary ammonium salts. It is ideal for disinfection, deodorization, and cleaning of hard surfaces in hospitals, public buildings, catering laboratories, hotels, food industries, and medical offices. With a broad spectrum of action, it is the perfect solution for combating and preventing contamination by microorganisms. Approved by the National Organization for Medicines (EOF).

ACTS IMMEDIATELY AGAINST:

EUROPEAN STANDARDS		STEM	CONDITIONS
EN 1276 EN 1040 EN 13697	Bactericidal action	<i>Staphylococcus aureus</i> , <i>Pseudomonas aeruginosa</i> , <i>Escherichia coli</i> , <i>Enterococcus hirae</i> etc.	5 minutes at 20°C under clean conditions
EN 1650	Fungicidal action	<i>Candida albicans</i> etc.	15 minutes at 20°C under clean conditions

Advantages

- ▶ Cleaner and disinfectant
- ▶ Highly effective
- ▶ Ideal for areas of special sanitary importance
- ▶ Strong deodorizing action
- ▶ Easy to apply
- ▶ Economical to use
- ▶ Stable in hard water

Field of Application

Indicated for the disinfection and cleaning of:

Floor areas, surfaces, walls, equipment, food service areas, catering, supermarkets, street markets, hotels, hospitals, gyms, sports facilities, swimming pools, schools, canteens, livestock and poultry farms, hygiene areas, trash bins, pet areas, veterinary clinics.

Users: Professionals and the general public.

Instructions for Use

Cleaning-Disinfection: For cleaning and disinfecting surfaces, tools, and utensils that come into contact with food, use a 2-3% solution in water with immersion, wiping, or spraying, followed by rinsing with clean water. The use of gloves is mandatory.

DETERGENTS - DISINFECTANTS - COSMETICS - DISINFECTIONS - PEST CONTROL

Cleaning-Disinfection-Deodorization: If simultaneous deodorization is desired, dilute 200-300ml in 10 liters of water for mopping floors, restrooms, walls, trash bins, etc

Technical Information

Appearance: Liquid, colorless to yellowish, with a characteristic odor

pH of undiluted product: pH = 8.0 ± 0.5 (10% solution)

 pH = 7.4 (1% solution)

The above data are indicative of the usual manufacturing process and should not be taken as product specifications.

Precautionary and Storage Instructions

FIRST AID

General instructions: Immediately remove clothing that has been soiled with the product. Move the affected person to fresh air.

After inhalation: Fresh air is essential, and for certainty, consult a doctor. In case of fainting, it is necessary to lie down and move to a stable side position. In case of discomfort, consult a doctor.

After skin contact: Rinse immediately with water and soap thoroughly. In case of discomfort, consult a doctor.

After eye contact: Immediately rinse the eyes with plenty of water, lifting the upper and lower eyelids alternately. Check and remove contact lenses if present. Continue rinsing for at least 10 minutes. Seek medical help if irritation occurs.

Be cautious when washing the eyes; high-pressure water jets may cause damage to the cornea, so consult a doctor.

After ingestion: Drink plenty of water and stay in fresh air. Do not induce vomiting unless instructed by medical personnel. Seek help if symptoms appear. Rinse the mouth with water. Consult a doctor immediately and show the label or packaging. Never give anything by mouth to an unconscious person.

HANDLING AND STORAGE INFORMATION

Precautions for safe handling: Be cautious when handling and opening containers. Avoid the creation of dust.

Handling: Prevent the accumulation and spread of dust (use protective measures for alkaline substances).

Technical measures and storage conditions: Store in tightly closed containers, in a cool, dry place with good ventilation.

Requirements for storage areas and containers: Strictly prohibited from penetration into the ground.

Storage co-storage instructions: Do not store with alkaline substances.
