FOT-70

Liquid detergent for hand dishwashing

UFI: YNMV-P10T-900G-63FN (VINEGAR)

UFI: 1JMV-51AD-Y00Y-JRVK (LEMON)

UFI: EQMV-51Q6-K00Y-VF1Q (RASPBERRY)

Description

FOT-70 is a viscous liquid detergent with a high concentration of active ingredients, offering consistent and powerful effectiveness against dirt.

FOT-70 performs excellently in all water hardness levels and rinses off easily, leaving utensils and surfaces shiny.

Key Properties/Features

- Neutral cleaner
- Economical in use
- Extremely effective
- Pleasant fragrance of lemon, vinegar, and raspberry

Advantages

- Completely removes all types of stubborn dirt found on cookware, dishes, glasses, etc.
- Effective even in hard water

Usage Instructions

Dosage-Application:

A few drops of FOT-70 (0.5-1.5 ml) on a wet sponge produce rich foam and ensure sparkling cleanliness without grease or odors.

Technical Information

- **Appearance:** Viscous liquid in green, orange, or red color, with the scent of lemon, vinegar, or raspberry.
- **pH Value (undiluted product):** 6.5±0.5

Precautionary and Storage Instructions

FIRST AID

General Instructions:

- Move affected individuals to fresh air immediately.
- Consult a doctor without delay.
- **After inhalation:**
In case of fainting, lay the person down and turn them to a stable lateral position. Ensure fresh air and consult a doctor for safety. If symptoms persist, seek medical advice.
- **After skin contact:**
Rinse immediately and thoroughly with water and soap. If irritation continues, visit a doctor.
- **After eye contact:**
Rinse eyes immediately with plenty of water, lifting upper and lower eyelids alternately. Check for and remove contact lenses if present. Continue rinsing for at least 10 minutes. Seek medical attention if irritation occurs. Be cautious during eye washing; high-pressure water jetting may risk corneal damage. Consult a doctor.
- **After ingestion:**
Rinse the mouth with water. Consult a doctor immediately and show the label or packaging. Never give anything orally to an unconscious person.

HANDLING AND STORAGE INFORMATION

- **Handling:**
Handle with care when opening containers.
- **Storage:**
 - **Technical measures and storage conditions:**
Store in tightly sealed containers in a cool, dry place with good ventilation. Keep in a shaded area.
 - **Requirements for storage areas and containers:**
Ensure container ventilation.
 - **Additional storage instructions:**
Keep in a tightly sealed container. Store locked or in a place accessible only to specialists or authorized personnel.

Hazard and Precautionary Indications

Classification according to Regulation 1272/2008 (CLP).

(If further details about hazard classifications or pictograms are needed, please provide additional information or clarify.)

Hazard pictograms

GHS05

Warning Word Danger

Hazard Statements
